

Day 14 SQL Challenge Questions

1. Show all records from the Sales table.

```
20 • SELECT * FROM Sales;
```

Result Grid | Filter Rows: | Edit: | Export/Import: | Wrap Cell Content: |

	sale_id	customer_name	city	product_name	category	quantity	price	sale_date
▶	1	Ravi	Bangalore	Laptop	Electronics	1	60000.00	2023-06-01
	2	Priya	Chennai	Mobile	Electronics	2	20000.00	2023-06-03
	3	Amit	Delhi	Headphones	Accessories	3	2000.00	2023-06-05
	4	Neha	Mumbai	Chair	Furniture	2	5000.00	2023-06-07
	5	Ravi	Bangalore	Mobile	Electronics	1	20000.00	2023-06-10
	6	Priya	Chennai	Laptop	Electronics	1	60000.00	2023-06-12
	7	Amit	Delhi	Chair	Furniture	4	5000.00	2023-06-15
	8	Neha	Mumbai	Headphones	Accessories	2	2000.00	2023-06-18
*	NULL	NULL	NULL	NULL	NULL	NULL	NULL	NULL

2. Display only customer names and cities.

```
21 • SELECT customer_name, city
22 FROM Sales;
```

Result Grid | Filter Rows: | Export: | Wrap Cell Content: |

	customer_name	city
▶	Ravi	Bangalore
	Priya	Chennai
	Amit	Delhi
	Neha	Mumbai
	Ravi	Bangalore
	Priya	Chennai
	Amit	Delhi
	Neha	Mumbai

3. Show product name and price.

```
23 • SELECT product_name, price
24 FROM Sales;
```

Result Grid | Filter Rows: | Export: | Wrap Cell Content: |

	product_name	price
▶	Laptop	60000.00
	Mobile	20000.00
	Headphones	2000.00
	Chair	5000.00
	Mobile	20000.00
	Laptop	60000.00
	Chair	5000.00
	Headphones	2000.00

4. Show all sales where city is 'Bangalore'

```
25 • SELECT *
26 FROM Sales
27 WHERE city = 'Bangalore';
```

[illegible]

5. Find all products in 'Electronics' category

```
28 • SELECT *
29 FROM Sales
30 WHERE category = 'Electronics';
```

[illegible]

6. Show sales where price is greater than 10000.

```
31 SELECT *
32 FROM Sales
33 WHERE price > 10000;
```

[illegible]

7. Display sales where quantity is more than 2.

```
34 • SELECT *
35 FROM Sales
36 WHERE quantity > 2;
```

[illegible]

8. Show all sales sorted by price (low to high).

```
37 • SELECT *
38 FROM Sales
39 ORDER BY price ASC;
```

[illegible]

9. Display sales sorted by quantity (high to low).

```
40 SELECT *
41 FROM Sales
42 ORDER BY quantity ASC;
```

[illegible]

10. Show unique cities.

```
43 • SELECT DISTINCT city
44 FROM Sales;
```
